

South African Genetics Society &
South African Society for Bioinformatics
JOINT CONFERENCE

**NEW
DATES!**

BIO2022

Bioscience, Big Data & The 4th Industrial Revolution

24-27 APRIL 2022 Spier Wine Estate, Stellenbosch

It is our pleasure to welcome you to the joint conference of the South African Genetics Society and the South African Society for Bioinformatics: BIO2022; in the heart of the Cape Winelands.

South African Genetics and Bioinformatics Societies thought it opportune to bring together researchers from across the spectrum under a central theme: Bioscience, Big Data & the 4th Industrial Revolution to facilitate dialog, networking, brainstorming and cross pollination of ideas. Where better to start this conversation, than on the banks of the Eerste River, whilst enjoying a glass of the Cape's finest produce at the picturesque Spier Wine Estate!

The Programme committee warmly invites you to submit an abstract for an oral or poster presentation. *(For instructions please check the website)*

Conference Themes

- Conservation & Environmental Sustainability
- Evolution & Ecology
- Biomedical Sciences
- Functional Biology
- Bioeconomy, Industries & Technologies
- Statistical & Computational Methods/Techniques

Important Dates

Abstract submission	•	until 15 December 2021
Notification of Acceptance	•	31 January 2022
Early Registration	•	until 14 February 2022
Late Registration	•	15 February 2022 - 18 April 2022
